Greetings {{First}},

The Anu, the smallest particle of *physical* matter. There are two versions

POSITIVE

NEGATIVE

FIG. 3. THE ANU

<https://AlliancesForHumanity.com/matter/Matter.pdf> or Matter.htm goes into greater detail. This

information was first released in 1908.

The attachment List.csv contains a list of who has received this email.

I will assume most of you have a difficult time with anything associated with the occult. Please read the following document, 15 pages. For humanities sake you MUST get past this!

<https://alliancesforhumanity.com/matter/Bailey.pdf>

"In 1919, during the month of November, I made a contact with A.A.B. (Alice A. Bailey) and asked her to do some writing for me and also to undertake the publishing of certain books which—under the sequential giving out of truth—were due to appear." From the Bailey.pdf document above.

The publishing, release, of information actually began with Helena Blavatsky and her two books *Isis Unveiled* (1877) and *The Secret Doctrine* (1888).

After *The Secret Doctrine* had been released for some time the physicists of the day naturally had a few comments on its contents. Blavatsky addressed these in an Addenda to be found at the end of the 3rd edition, 1st volume. I extracted these pages and created the document *For Our Physicists*.

I've opened a door for you. If you possess a need for truth, mental flexibility and a desire to be of help then Please take advantage of this. You're going to have to buck the system for this to work, stand on a higher set of principles. Do you have the courage, the strength, to do this or are you content with the limited work you're currently involved in? How many people will it help, to what extent will it improve human, or planetary, conditions in the near future, the next 10-20 years? I assume, being an intelligent global citizen, you watch one of the major balanced news programs, CNN, BBC or Al Jazeera. You're aware of what's going on out there and the desperate conditions which exist, which you share a responsibility for either by your actions or inaction's. We spend billions on projects which are of NO PRACTICAL value. The toys can be played with after the planet has been salvaged! We are at a turning point in our civilization. We either get our collective act together OR others will have no choice but to step in because we are too childish to fulfill our responsibilities! See the Bailey.pdf document.

"The Large Hadron Collider took about a decade to construct, for a total cost of about \$4.75 billion. There are several different experiments going on at the LHC, including the CMS and ATLAS Detectors which discovered the Higgs boson. CERN contributes about 20% of the cost of those experiments, which is a total of about \$5.5 [m?]billion a year. The remainder of the funding for those experiments is provided by international collaborations. Computing power is also a significant part of the cost of running CERN - about \$286 million annually. Electricity costs alone for the LHC run about \$23.5 million per year. The total operating budget of the LHC runs to about \$1 billion per year."

If the money spent on this one project had been channeled into pursuing the work done by Royal Rife and Henry Moray we WOULD have a cure for ALL microbial based diseases, which includes cancer, AND we would have an abundance of clean inexpensive energy. What a waste! I'm sorry but I see only arrogance in this, a complete lack of sensitivity to world need.

"Fanaticism in religion, fanaticism in science, or fanaticism in any other question becomes a hobby, and cannot but blind our senses. It will ever be useless to argue with a fanatic. And here we cannot help admiring once more the profound knowledge of human nature which dictated to Mr. Sergeant Cox the following words, delivered in the same address as before alluded to: "There is no more fatal fallacy than that the truth will prevail by its own force, that it has only to be seen to be embraced. In fact the desire for the actual truth exists in very few minds, and the capacity to discern it in fewer still. When men say that they are seeking the truth, they mean that they are looking for evidence to support some prejudice or prepossession. Their beliefs are moulded to their wishes. They see all, and more than all, that seems to tell for that which they desire; they are blind as bats to whatever tells against them. The scientists are no more exempt from this common failing than are others."

From *Isis Unveiled*, 6th Ed., Vol. I, p. 615

You will find information relative to Rife and Moray in the attached file discoveries.pdf.

A Forum has been created which will allow you communicate and exchange ideas at one central location.

<https://alliancesforhumanity.com/phpbb/>

My reply address is different from the sent. Should you wish to communicate privately/securely I have much greater faith in protonmail.com than the server through which I'm sending this communicate. Naturally this would require you to be using a highly secure provider as well. Regardless, I can be reached at both addresses.

A song:
